

About Formula30A

Formula30A is producer of premium, all-natural hemp products to support daily health, wellness, healing, and recovery. We are dedicated to providing the highest quality CBD products for health providers and their patients.

Our hemp is grown following organic growing guidelines using highest quality seed genetics by our local farms to provide the purest medical grade CBD on the market today.

OUR CBD LIFECYCLE

All our products are made using a patented, small batch, water-based extraction process. This ensures pure, contaminant free, premium quality full spectrum CBD for our all our products, to meet our uncompromising standards of safety and effectiveness.

From the cultivars we select to multi-stage third-party lab testing, we deliver the highest quality formula with the ingredients and efficacy patients desire and nothing else. From seed to oil - our product quality is unsurpassed in the industry.

Our Vision

We supply the Medical community and their patients with the finest, high-quality CBD products and lead the industry in clinical research and education.

F30A Community

At Formula30A, we strive to increase access to healthy outcomes for those that need it most through our "F30A Community" initiative. We support organizations advocating for the research and implementation of cannabidiol-based remedies by donating 10% of all Formula30A profits to designated F30A Community members.

Our featured group, the Veteran's Cannabis Project, is dedicated to improving US military veterans' quality of life through the opportunity of cannabis. Learn more about VCP by visiting their website at www.vetscp.com.

Clinical Strength Full-Spectrum Hemp CBD Extract

Why Formula30A

Quality

Formula30A CBD supplements are developed using a patented, solvent-free, natural process using only natural products. This water-based process never crosses the outlined 0.3% THC threshold and develops supplements free of chemical residue inherent in other distillation methods.

Safety

Each batch of Formula30A is 3rd-party tested before and after encapsulation to ensure the highest quality and efficacy of our products. Formula30A is only available for purchase through verified physicians, guaranteeing that supplements are consumed safely and under the supervision of educated and knowledgeable professionals.

- Migraines
- Mood Disorders
- Multiple Sclerosis (MS)
- Nausea
- Neurodegeneration
- Osteoporosis
- Parkinson's Disease
- PTSD
- Rheumatism
- Schizophrenia
- Sleep Disorders
- Stress
- Stroke
- Traumatic Brain Injury

What is CBD?

Background

Cannabidiol (CBD) is one of over 100 phytocannabinoid compounds found in cannabis and hemp plants that has significant medical benefits without the psychoactive effects commonly associated with cannabis.

Is CBD Safe & Legal?

Industrial hemp is legal in all 50 US states when it contains less than 0.3% THC content by dry weight. The World Health Organization stated in 2017 that CBD is "safe, well tolerated, and not associated with any significant adverse public health affects," and is "not associated with abuse potential, it does not induce physical dependence, and it is generally well tolerated with a good safety profile."

These statements have not been evaluated by the Federal Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.
